SUMMARY

MERN Stack Developer with hands-on experience in React.js, Node.js, Express.js, MySQL, and MongoDB. Currently pursuing MCA and working on real-world web applications during internship at Intelligic Software Pvt. Ltd. Holds Microsoft AI Fundamentals (AI-900) and MERN Stack certifications. Looking to join a full-time full-stack developer role and continue building practical web applications.

EDUCATION

Savitribai Phule Pune University 2024 – 2026
Master of Computer Applications (MCA) — Currently Pursuing Pune, Maharashtra

Shivaji University, Kolhapur Apr 2024
Bachelor of Computer Science (BCS) | Score: 76.07% Kolhapur, Maharashtra
College: Jaysingpur College, Jaysingpur

Jaysingpur College, Jaysingpur 2019 – 2021
Higher Secondary Certificate (HSC) | Score: 71.00% Jaysingpur, Maharashtra

WORK EXPERIENCE

Intelligic Software Pvt. Ltd., Pune Sep 2025 – Present
Intern Software Developer Pune, Maharashtra

- Secured a 6-month internship focused on web application development using React.js, Node.js, and MySQL.
- Contributed to development and maintenance of 5+ web application modules following MVC architecture and REST principles.
- Created REST APIs and integrated frontend with backend modules across 5+ features.
- Worked on QC Management System features including role-based access, report generation, and real-time data handling.
- Collaborated with a team of 8+ members in Agile/Scrum sprints, attending daily stand-ups and code reviews.
- Maintained 100% compliance with security and data confidentiality protocols across all deliverables.

PROJECTS

Multi-Tenant QC Management System React.js | Node.js | Express.js | MySQL
Live: qc-management-1l8g.onrender.com | **GitHub:** github.com/ajinkyapatil55/qc-management-system

- Developed a QC Management System using React.js, Node.js, Express.js, and MySQL for real-time tracking of manufacturing parts.
- Implemented employee-wise QC report filtering and defect tracking with bar charts, line graphs, and pie charts.
- Created secure JWT authentication and role-based login for three user types: admin, supervisor, and floor worker.
- Designed REST APIs to fetch QC reports, inspection quantity, rejected quantity, and defect details.
- Integrated frontend and backend using REST APIs and optimized SQL queries using JOIN operations.

Online Electronic Shop Java | Servlets | MySQL
GitHub: github.com/ajinkyapatil55

- Built a complete e-commerce and inventory management system with product listing, cart management, and billing automation.

- Implemented search and filter algorithms for product categorization across 10+ categories.
- Developed automated sales reports with date-wise filtering to help track revenue and stock movement in real time.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, React Hooks, Context API

Backend: Node.js, Express.js, Advanced Java

Database: MySQL, MongoDB, Mongoose

Tools: Git, GitHub, Postman, npm, Servlets

Other: JWT Authentication, REST APIs, API Integration, CRUD Operations, Full Stack Development

Methodologies: Agile, Scrum, MVC, RBAC

Strengths: Problem Solving, Quick Adaptability, Team Collaboration, Leadership

Languages: English, Hindi, Marathi

CERTIFICATIONS AND ACHIEVEMENTS

- Microsoft Certified: AI Fundamentals (AI-900) — Core AI Concepts, Machine Learning models, Responsible AI practices and Azure AI services.
- MERN Stack Development — Full-stack certification via Apna College; covered React.js, Node.js, Express.js, MongoDB, REST APIs and deployment.
