Ajinkya Subhash Patil

MERN Stack Developer | Full Stack Engineer

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer and final-year MCA student at Savitribai Phule Pune University (Dnyansagar Institute of Management & Research, Pune). Hands-on internship experience building enterprise-grade web applications. Certified in Microsoft AI Fundamentals and MERN Stack Development. Seeking a full-stack developer role to contribute expertise in React.js, Node.js, RESTful APIs, and database management to drive organizational growth.

EDUCATION

Master of Computer Applications (MCA) 2023 – 2025
Dnyansagar Institute of Management & Research, Pune
Savitribai Phule Pune University | Final Semester

Bachelor of Computer Science (BCS) 2020 – 2023
Savitribai Phule Pune University

WORK EXPERIENCE

Intelligence Software Pvt. Ltd., Pune Sep 2025 – Present
Intern Software Developer ● Currently Active

- Selected for 6-month intensive internship focused on enterprise-grade software solutions.
- Developing scalable web applications with 100% compliance with security and confidentiality protocols.
- Collaborating with cross-functional teams in Agile/Scrum environment to meet project deadlines.

PROJECTS

QC Management System Full Stack · Enterprise React.js | Node.js | Express.js | MySQL

- Engineered a Multi-Tenant QC dashboard enabling real-time parts tracking and worker analytics.
- Designed secure, isolated multi-tenant architecture for multiple organizational clients.
- Built dynamic charts/graphs for owner-level inspection success rate monitoring.

Online Electronic Shop Full Stack · E-Commerce Java | Servlets | JSP | MySQL

- Built end-to-end e-commerce system with customer billing and automated sales record management.
- Implemented efficient search and filter algorithms for fast product categorization and retrieval.
